
Plan Overview

A Data Management Plan created using DMPonline

Title: Modular Craft-Industry Collaboration: A Practice-Led Investigation into Authorship, Agency, and Material Knowledge

Creator: Shai Akram

Principal Investigator: Shai Akram

Data Manager: Shai Akram

Affiliation: London Metropolitan University

Funder: Arts and Humanities Research Council (AHRC)

Template: AHRC Data Management Plan

ORCID iD: 0009-0003-4943-642X

Project abstract:

This practice-led PhD investigates how traditional craft practices can ethically and creatively intersect with industrial manufacturing. Through fieldwork in the UK and Costa Rica, the research explores how authorship, material knowledge, and cultural specificity are negotiated in collaborative production contexts. Data includes photographic documentation, field notes, informal interviews, and workshop outputs. The project develops a modular framework — the Exquisite System — to test how equitable, decentralised design methods can support sustainable futures. All data is qualitative, collected with participant consent, stored securely, and used only for non-commercial academic purposes.
